FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Zoning Commissioner as a Petition for Variance for that property known as the Rolling Wind Apartments, located on Rolling Road southwest of Tudsbury Road in southwestern Baltimore County. The Petition is filed by John B. Colvin on behalf of the Rolling Wind Associates Ltd. Partnership. Relief is requested from Sections 504.1 and 1B01.2.C.1 of the Baltimore County Zoning Regulations (BCZR) and pages 25 and 30 of the Comprehensive Manual of Development Policy (CMDP), Residential Standard Section, to permit a 45 ft. setback between a rear of a multi-family building to the rear of a multi family building in lieu of the required 60 ft. Also requested is a variance from Section 504 of the BCZR and page 25 of the CMDP, Residential Standard Section, to permit a 0 ft. setback in lieu of the required 35 ft. from a building face to the paving of a private street. The subject property and requested relief are more particularly shown on Petitioner's Exhibit No. 1, a 3 page plat to accompany the Petition for Variance.

Appearing at the public hearing held for this case was John B. Colvin, representing the property owners/Petitioner. Also present was David Thaler and Philip Carroll from D.S. Thaler and Associates, the engineers who prepared the site plan. The Petitioner was represented by Stuart D. Kaplow, Esquire. There were no interested persons or Protestants present.

Testimony and evidence presented was that the subject variances are requested as they relate to a portion of the development of the entire tract of this property. As noted above, the site is being developed as the Rolling Wind Apartments. Development is to be accomplished by way of three phases. The units in Phase I and Phase II are for rent and the units in Phase III are for sale. The subject variances relate to certain units in Phase II.

The property also has a significant zoning history, some of which relates to the instant case. The case was the subject of a Petition for Zoning Variance in case No. 90-283-A, wherein certain variance relief was granted. Later, the matter came before the Board of Appeals under case No. MC-90-5 wherein certain zoning lines were adjusted. Also, the matter was the subject of a Petition for Zoning Reclassification which was granted by the Board of Appeals under case No. R-92-154. Most recently, the matter came before Deputy Zoning Commissioner, Timothy M. Kotroco, in case No. 93-238-A. Therein, Deputy Zoning Commissioner Kotroco granted certain variances. These variances also relate to the subject property which is at issue in this case.

The subject variances requested are mandated as a result of a redesign of the apartment buildings which are proposed. The first variance from Sections 504.1 and 1B01.2.C.1 and related provisions of the CMDP is requested to allow a 45 ft. distance between buildings 13 and 9; and 12 and 15 in lieu of the required 50 ft. The second variance, from Section 504 of the BCZR and relevant CMDP portions, request a 0 ft. setback in lieu of the required 35 ft. from a building face to the edge of the paving of a private street.

The variances are justified because of the unique architectural style of the buildings. As shown on the site plan, the apartments will be so

constructed so that each unit has its own garage. Originally, the structures were proposed with on-street parking. Moreover, the parking garages will be constructed at grade with each apartment unit over top of the garage provided for it. Direct access between the garage and the unit will be allowed. This unique architectural style mandates a minor expansion of the original building envelope which is shown and, therefore, brings the building slightly closer to the other units. Moreover, since the macadam parking area leads to the garages directly under the units, a 0 ft. setback from the building face to the paving of the parking is requested.

Clearly, the BCZR and CMAP did not contemplate the innovative design proposed by the Petitioner. The design appears entirely appropriate and compatible with surrounding uses. This design will clearly address the current market trends and will allow for a new and exciting apartment concept. It is to be noted that the Office of Planning and Zoning within its Zoning Plans Advisory Committee (ZAC) comment recommends approval.

An area variance may be granted if the Petitioner adduces testimony and evidence to comply with the provisions of Section 307 of the BCZR. Therein, the test which must be applied to any variance is listed. Specifically, it is provided that the Petitioner must show that a practical difficulty would result if variance relief were denied. Moreover, variances may only be granted if same are within the spirit and intent of the BCZR and if they will not cause detriment to the surrounding locale.

Based on the uncontradicted testimony and evidence presented, I am persuaded that the relief requested should be granted. I find, as fact, that the Petitioner has satisfied its burden.

RE: Case No. 95-132A, Item No. 134
Petitioner: Rolling Wind Assoc./J.B. Colvin

Dear Mr. Kaplow:

The Zoning Advisory Committee (ZAC) has reviewed the plans submitted with the above-referenced petition, which was accepted for filing on October 07, 1994 and scheduled for a hearing accordingly. Any attached comments from a reviewing agency are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties, i.e., zoning commissioner, attorney and/or the petitioner, are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case.

Any comments submitted thus far from the members of ZAC that offer or request information on your petition are attached. Only those comments that are informative will be forwarded to you; those that are not informative will be placed in the hearing file.

The following is related only to the filing of future zoning petitions and are aimed at expediting the petition filing process with this office:

1. The director of the Office of Zoning Administration and Development Management has instituted a system whereby zoning attorneys who feel that they are capable of filing petitions that comply with all aspects of the zoning regulations and petitions' filing requirements can file their petitions with this office without the necessity of a preliminary review by zoning personnel.
2. Anyone using this system should be fully aware that they are responsible for the accuracy and completeness of any such petition. All petitions filed in this manner will be reviewed and commented on by zoning personnel prior to the hearing. In the event that the petition has not been filed correctly, there is the possibility that another hearing will be required or the zoning commissioner will deny the petition due to errors or incompleteness.
3. Those individuals who make appointments to file petitions on a regular basis and fail to keep the appointment without a 72-hour notice will be required to submit the appropriate filing fee at the time future appointments are made. Failure to keep these appointments without proper advance notice, i.e., 72 hours, will result in the forfeiture loss of the filing fee.

If you have any questions concerning the enclosed comments, please feel free to contact Joyce Watson in the zoning office at 887-3391 or the commenting agency.

Sincerely,
